Notes

Town rates are added to county rates in localities where both taxes apply.

To calculate current yearly tax, take the current assessed value of the home divide by 100 and multiple it by the current tax rate.

Example: The assessed value of the home is \$178,500 and the home is in Christiansburg:
 $178,500/100=1785 \times .774=1381.59$ So the current taxes are \$1381.59

All rates current as of 5/21/08
